This event sets out to explore and contribute to themes surrounding equality, diversity and inclusion (EDI). There will be a key speaker to bring EDI into focus, followed by brief presentations of a variety of Speaker abstracts and case studies to provide a wealth of current research and practice to share and discuss.

The featured speakers have been also asked to help lead us in a colloquium reflection on next steps.

You can sign up on our website, and view the speakers abstracts and case studies with the agenda:
