Assessing Work-Based Projects

Chartered Manager Degree Apprenticeship (CMDA)

Project Management module

Two Options for Assessment:

1. Full Project Proposal (3.500 words)
2. Work artefacts & critical commentary + shorter proposal.

Option 2 = Turning contextualised 'real-world' study into (parts of) a qualification.

The Tension

Turning contextualised 'real-world' study into (parts of) a qualification.

This gives work-based project work currency.

It involves external (to the workplace), standardised assessment (also during EPA - portfolio).

The moment currency (credit) is gained, work-based project work cannot be true to the original concept.
